Hi Rich:

Attached is the only document at ADEQ that was responsive to the below records request. As you can see from the attached, it is the NOI for coverage under the Construction General Permit. It was filed with ADEQ a week after I filed my request for information. It identifies the beginning of construction date as yesterday. I believe they have been in the construction for almost a month at this point. My guess is that ADEQ called Hickman after I filed the request and suggested they file something.

There was no SWPP, no Nutrient Management Plan - Indeed, there were no other documents that were responsive to my request.

On another note, the washes that run along and through the property (which is located on a flood plain) are tributaries to the Gila River. I would really encourage some EPA involvement here. Let me know if you need anything else. Thanks.

Subject: Records Request Re: Proposed Hickman Egg Facility in Tonopah, Arizona

Importance: High

I would like to review records pertaining to the Hickman Egg CAFO (aka Desert Pride Farms) that is being constructed in Tonopah, Arizona on 360 acres near Indian School Road and 419th Avenue. Specifically, I would like to review:

1. The Notice of Intent (NOI) filed by Hickman - for coverage under the Construction General Permit;
2. Hickman's Stormwater Pollution Prevention Plan ("SWPP") - if ADEQ does not have a copy, please request a copy from Hickman for me;
3. The Notice of Intent (NOI) filed by Hickman to fall under the AZPDES General permit for CAFO's;
4. Hickman's Nutrient Management Plan; and
5. Any/all correspondence/documents in ADEQ's files pertaining to and/or discussing any aspect of the above;
6. I would also like to review any/all documents that pertain and/or relate to this facilities Aquifer Protection Permit ("APP")

I represent community members and a not for profit organization working with the community near the proposed facility. Thank you. I look forward to your response.
